PROFILE

A dedicated, optimistic and hardworking individual with great collaboration skills. I'm a programmer passionate about video games striving to learn and improve my skills in the programming specialization. In-depth knowledge of software such as Unity to produce high-quality games. Dedicated perfectionist and problem solver with a love for bringing concepts to life. Devoted worker with an interest in self-development and learning.

EDUCATION

MComp Computer Science for Games
Sheffield Hallam University   2022-present
I am currently studying at Sheffield Hallam University. I will gain in-depth knowledge hardware-level optimizations used in modern games, how to write the libraries and tools used to develop games and build practical experience in writing software to create computer games. I will also develop skills in how to apply math's in 2D and 3D development.

UAL Level 3 Extended Diploma in Creative Media Production and Technology in Games Development
Barnsley College   2020-2022
I achieved a distinction at Barnsley College in both my diploma and extended diploma. Throughout my time at college, I gained knowledge in the basics of game development. This included the tools and software used as well as theories and methods of level design and art.

WORK EXPERIENCE

Night Stocker
Tesco   2023-present
I work on the shop floor at Tesco, unloading wagons, stacking shelves, and assisting customers.

Stock Assistant
Argos   2022-2023
I worked in the warehouse at Argos. I used a range of skills at Argos such as teamwork, problem solving and communications.

Freelance Web Development
L2-Design   2021-2022
I worked with clients in order to create, update or redesign their websites. This included research, planning and publishing a variety of websites.
